

All Shapes Club

The community hub for inclusion and accessibility, at the AI Experience Hub — Shop 6, 365 St Pauls Terrace, Fortitude Valley. Events · coworking · robotic hospitality.

MONTHS 1–3 · TRIAL

\$20k rent + \$10k launch

Jesse's half-share for the quarter is ≈ \$30,000. **\$20,000 is paid as rent** — one month in advance, on the 1st of each month. The remaining ≈ \$10,000 is not paid as rent: by agreement it is redirected into the opening-night budget — catering & food, photographers & videographers, flying in special guests — spent through the shared ledger. Same total contribution; the rent shortfall is made up as the launch investment that starts the space earning. Weekly walk-throughs to launch; joint calendar; decisions by the two of us only.

MONTHS 4–6

50 / 50

Full equal partnership on rent and the venue P&L — rent paid one month in advance on the 1st; costs, event profits, coworking and F&B income split evenly through the same open ledger.

MONTH 7 ONWARD

Co-founders

A formal **co-founder agreement**: 50/50 venture entity for All Shapes Club — roles, brand and IP ownership, profit distribution — papered with proper advice.

1 Gino's fitout — recognised & repaid

Gino has invested ≈ \$500,000 in the space. That capital is recorded at an agreed value and **repaid on a 50/50 basis** — an agreed share of venture profits is directed to Gino ahead of distributions until the balance is squared, so both partners end up having carried the venue equally.

STRUCTURE WITH ACCOUNTANTS

2 First right on the lease

Purely a "just in case", for later: should Gino ever choose to **break the lease or sell his interest** in the space, Jesse / All Shapes holds **first right** to take over the lease and/or acquire that interest at fair value before any third party. No obligation on either side — it simply protects what we build together.

3 What each side brings

Wonder Byte — Gino Feng

- The space and the ≈\$500k fitout — kitchen, steak oven, cellar, mezzanine
- The robot fleet (Cadebot, Cruzr, coffee & bar arms, Unitree G1) and the AI/robotics engineering to program every experience
- Showroom operations and supplier relationships

All Shapes — Jesse Costelloe & team

- **Fully branded, ready to launch** — all websites and outward marketing, designed and delivered (the live All Shapes Club site is the proof)
- Jesse — brand, inclusive design & the guest experience; Marzi Tafreshi — sales, marketing & events; Narelle Wright — digital accessibility (DASAT); Greg Buckley — construction & fitouts; Mick Fallon — 30 years running Brisbane's most iconic venues, leading the Christmas booking drive (4–5 nights/week, 1 Nov – 12 Dec)
- The network: UQ as key partner & sponsor, UniQuest Extension Fund, investor interest incl. Michael Batko (Startmate), keen customers

4 In-kind collaboration & first right of work

Beyond the venue, the partnership extends to each other's projects and customers. **Kin Ventures leads — and is offered first — all branding, UX/UI, websites, architecture and design work** across joint projects; **Wonder Byte leads all technical, AI and robotics work**. Both sides may contribute work in kind, recorded through the shared ledger at agreed rates — for example, Wonder Byte acting as the technical team on Kin Ventures projects (such as Rise), or Kin Ventures delivering branding, design and fitout services to Wonder Byte customers who need them. Referrals flow both ways; each side scopes and quotes its own work.

5 How the space earns

- Events: hire + robot experiences + F&B (draft rate card live on the site)
- Coworking: free hot desks downstairs (paid coffee/food) · \$500/mo dedicated mezzanine desks
- House cellar poured at events — stock at cost to Gino, margin to the venture
- Event & coworking profits credit rent 50/50 until the space pays for itself

6 Next steps

- Paper this one-pager (light legal review both sides)
- Accountants: fitout value + repayment mechanics
- Space reset + Matterport scan + pilot shoot (opening night)
- On market for Christmas bookings by September
